CRYSTAL MOON™
easily removes the grease, grime
and soil that latches on to metals,
even stainless steel.

But it gets better.

Because of the “Nano Bonding
characteristics and how CRYSTAL
MOON™ fills in the tiny pores of
metal, now soil and oil smudges are
FORCED to disassociate from the
surface.

SURFACE PROTECTOR

All things in nature have positive or negative electrical charges. Items such as furniture or counters become positively charged producing static.

Most airborne contaminants like dust and particles are negatively charged.

Because opposites attract, these surfaces act like a magnet to dust.

Cleaning with CRYSTAL MOON™ changes the charge back to negative **ELIMINATING THE ATTRACTION THUS KEEPING THE DUST AND PARTICLES AWAY.** As result, CRYSTAL MOON™ cleaned surfaces stay cleaner longer.

NANO-TECHNOLOGY BARRIER

CRYSTAL MOON™ is a wonderful cleaner that pulls double-duty laying down a micro (nano), bonded barrier of stain protection.

This nano-technology barrier continues to work after each cleaning by providing a protective micro-layer that repels dirt, dust, grease and bacteria.
