Bacteria Infection During Menstrual Period

After using low quality sanitary napkin for 2 hours ,

Total number of bacteria in surface is increased dramatically!

Breeding ground for a variety of bad bacteria!

Low Quality Sanitary Napkin...

Recycled paper

Using a large amount of **chemicals, bleaching agent, disinfection agent** to get rid of smell & bacteria !

Do you know that ...

Warning from WHO :

Dioxin is unwanted by products of a wide range of manufacturing processes including **chlorine bleaching of paper pulp**.

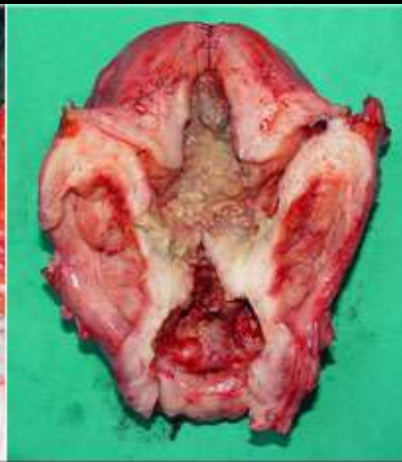

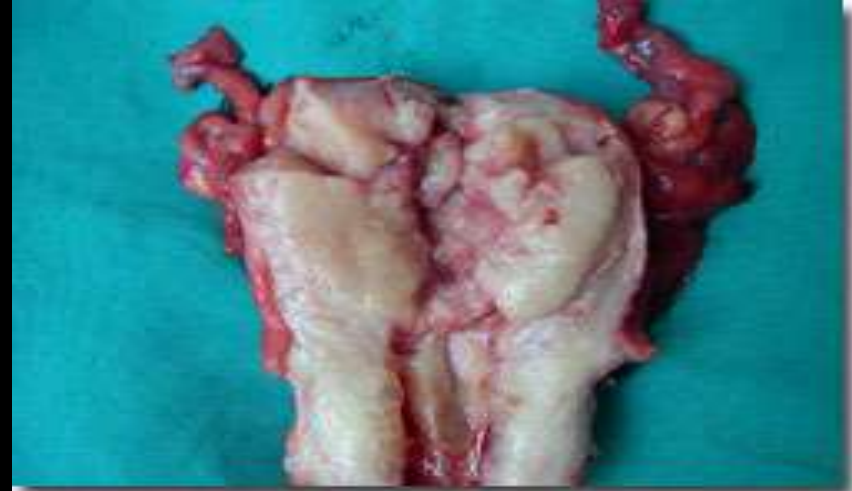

Exposure to high concentrations of dioxin increase the risk of

- ✓ Immune system supression disease
- ✓ Pelvic inflammatory disease
- ✓ Reduced fertility, and disturbance of fetal and child development
- ✓ Cancer

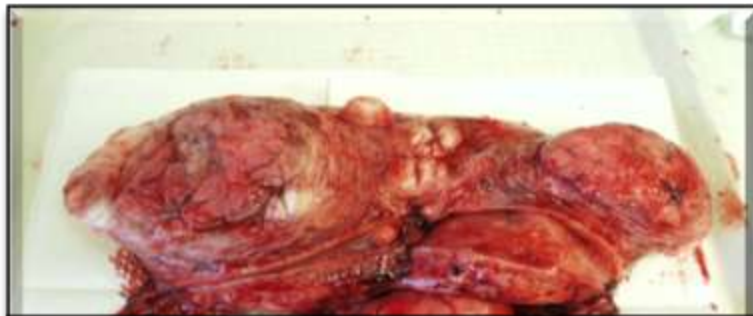

Cervical Cancer: No. 2 Killer of Women

Cervical Cancer

Prevention is better than cure!

Why women still continue to use the terrible sanitary napkin?

Because ... DO NOT KNOW !

- ✓ Do not know the **raw materials** of low quality sanitary napkin
- ✓ Do not know the **side effects** of low quality sanitary napkin
- ✓ Do not know there are sanitary napkin with **better quality and more safe to use** in market!

Love Moon Anion Sanitary Napkin

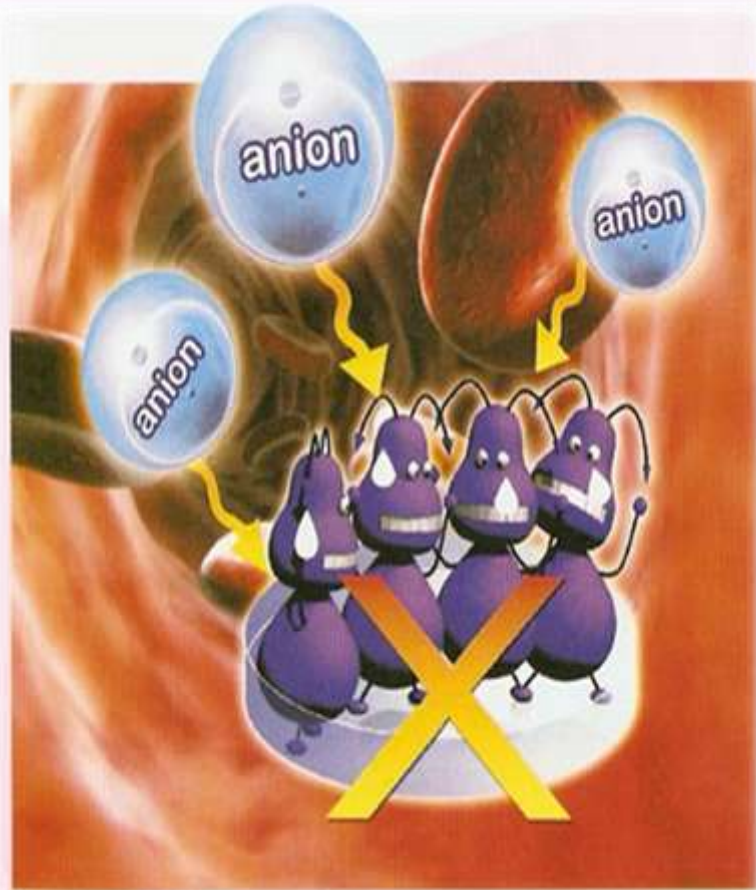

2 Main Patents :

- **Anion chip**
(Patent No: ZL200420064658)
